- Hold 'Z' - Zoom in-Hold 'Y' - Zoom out-Add picture/videorecording-Hold 'A' - Add the image you want into the body of the email-Hold 'C' - Add text you want into the body of the email. If you like the

email program, you can purchase me a cup of coffee, and I'll make it open for you. Keymacro Usage: - Press 'Z' - zoom in the image you want - Press 'Y' - zoom out the image you want - Press 'A' - Add an image into the email. - Press 'C' - Add text into the email. - 'X' - view/delete the image/text If you don't know how to read english, well that's the problem, I'm not english, but I'm sure you can figure it out. If you like the email I made, I'll be more then happy to sell it to you, I'm sure other people can make a nice couple of dollars, so if anyone wants to purchase it, email me and I'll send it to you free. If you don't want to send the mail yourself, then download the program and try it, it's really simple. Upon starting the program, you need to point the webcam to your image, which I'm not going to explain here. I'll leave that up to you, I'll just point out that you can do this in real time, which is good. Now for the fun part, the EMAIL. There's some very easy stuff to do here, such as showing an image of yourself, showing what you look like, an image of your ship etc. If you want the text version of this EMAIL, go to the "TXT" icon, and click on "Send As" and choose mail. Now that you've done the above, go into "MY" and you should be able to see the mail. The EMAIL is very easy to figure out, if you have problems, read the manual. If you like the email, email me and I'll send you the program for free. If you don't like the email, then don't email me, and don't bother to email me again. What's New in the?

VEmail is a video emailer that sends video to your email address.You can use any webcam or microphone. You just enter the email address where you want the video sent to. Then click'send'. That's it. The mail will arrive at your email address as a video. You can play the video with any video player. You can even copy the address and send video to your family members! You can use the VEmail program, for free. You can also have other email clients download the VEmail program and connect it. There is no need to install VEmail on the server of the person you are sending the video to. The VEmail program is stand-alone. So you can make video messages with no extra steps, using any web camera. If you want to share video with your family, friends, or business partners, or if you just want to send a birthday video greeting, this is the perfect program for you! VEmail supports hot-swapping webcams/microphones. So if you have a webcam or mic that is not currently plugged into your computer, you can plug it into your computer and use VEmail. There are several features that you cannot use with other programs. VEmail works with Windows 2000, XP and Vista. It will work with most webcams and microphones. For this reason, there is no "Max. Number of viewers" or similar option. There is no limitation to the number of recipients. Main Features: * Fast and easy to use * Send video to any email address * Simply send a video message * Use any webcam or microphone * Download the VEmail Program, or any other email client that support VEmail, and have it connect to VEmail * Hot-swapping webcams/microphones Theres a few video emailing programs out there some cost money, others are free, but require the reciever of the mail to install a program or plugin just to watch it. VEmail should work with any webcam/microphone, just 7 simple steps to make your video email message, click send, and away it goes, the reciever simply recieves and email with an MPEG attachment, which can then be played by Windows media player, which should already be installed on their PC. The name VEmail stands for Video Emailer. To recieve video emails, any email program will do, outlook, eudora etc. I've made this so simple to use, even AOL customers will be able to use it. Description: VEmail is a video emailer that sends video to your email address.You can use any webcam or microphone. You just enter the email address where you want the video sent to. Then click'send'. That's it. The mail will arrive at your email address as a
